

QUALITY POLICY

U2 Marine Services is a multipurpose marine services company providing company focus on bringing in the very best skills to clients in the maritime sector and related business areas.

We have a broad client base within Oil, Chemical and Gas Industry across the globe. Our consultants are ex – Master Mariners and Chief Engineers who have wide ranging experience in the Oil, Chemical and Gas transportation industries and enjoy over 100 years of combined experience among themselves.

We provide ISM, ISPS, Navigational and Cargo operations audits. Pre-SIRE, Pre-purchase inspections, LNG specific ship-shore compatibility and Mooring analysis using Optimoor®.

Our Mission:

To provide tailor-made solutions to our valued customers

Our Vision:

To evolve as the maritime industry's most customer centric organisation

Our Mission:

To create an environment in which different workforces can interact in a positive way. To create a competitive advantage.

To:

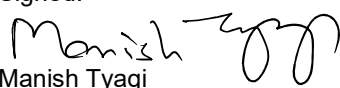

- Be transparent and honest in our dealings
- Maintain long-term, healthy relationships
- Be an economical and reliable service

To assist us with this, we maintain a quality system which meets the requirements of ISO 9001:2015.

We:

- Are committed to the improvement of the ISO 9001:2015 management system
- Are committed to satisfying all applicable regulatory and customer requirements
- Establish and monitor appropriate quality and company objectives and use these to develop the company;
- Ensure that anyone working on our behalf understand the importance placed on the management system, this policy, the objectives and their role in supporting them;
- Ensure the policy is available to any interested parties

Signed:

Manish Tyagi
(Chief Operating Officer)
